## Concordance between canons of Burchard, the Decretum of Ivo, Arsenal 713B, Panormia, Collectio Brittanica, Tripartita A and B, and the abbreviations in Harley 3090 and Lincoln 193

NB. There are a number of canons in ID which bear a generic resemblance to those found in BD and Trip, but are neither exact parallels nor in apparently significant sequence. These are not usually noted here.

<sup>1</sup> capp. marked <sup>a</sup> are significantly shorter; the scale of the abbreviation is noted in the main text. Generally F follows H, but its specific changes and additions are noted briefly here, more fully in the main text.

<sup>&</sup>lt;sup>2</sup> In L a run of canons omitted earlier is added at the end of most books; these are signalled by brackets, as are others entered out of sequence in the book proper.

<sup>&</sup>lt;sup>3</sup> The rubric to the first book occurs here in the complete mss but before c. 1 in the abbreviations and the ed.

<sup>&</sup>lt;sup>4</sup> cc 4-44 are taken from Fulgentius, De fide ad Petrum, ed. Fraipont in CCL 91A, 744-60 (cc 47 (iv) – 87 (xliv)a)
